**PLEASE LIMIT FERTILIZER USE ON YOUR LAWN**

The Medford Lakes Colony through its "Lakes Leaders" program is recommending that Colonists limit or eliminate spreading fertilizer on their lawns. Lakefront Owners in particular should limit their fertilizer use, and by ML Ordinance, fertilizer should never be spread within 10' of a lake. (The Colony recommends no fertilizer within 20' of the lake.). Consider using CORN GLUTEN fertilizer (available at Spotts).

Why? Fertilizer use is literally "killing" our lakes, creating multiple negative impacts including excessive weed growth, higher nitrogen levels, and oxidation issues. Even if you don't live on a lake, fertilizer can wash into the trails and down storm drains.

Here's another idea: Reduce the size of your lawn, or eliminate your lawn all together, by increasing the size of existing garden beds or shrubbery areas, or creating new gardens, or planting new trees and shrubs.

Please be aware that the water we draw from our wells affects our lake springs. Please conserve water when possible and irrigate your lawns only as needed. Installation of smart sprinkler systems will help the water levels in our lakes and aquifers stay high enough to feed our lakes and keep our town looking beautiful.

**HAVE YOU REGISTERED FOR CAMP?**

**PLEASE PICK UP AFTER YOUR PET**

There is a common misconception that pet waste benefits the environment by fertilizing the soil. Pet waste can contain disease-causing bacteria and parasites that can harm people and water systems; it also contains nutrients that promote the growth of algae and waterweeds in our lakes. We all need to do our part to remedy this serious problem – please pick up after your pet!
